

## Supermarket 2020 takes over 'Skrapan' in Stockholm's Södermalm

Supermarket 2020 – Stockholm Independent Art Fair moves to the very core of the city's cultural scene to Södermalm's 'Skrapan'. The art fair will open to the public from 23 to 26 April 2020, Thursday to Sunday. 'Skrapan' (The Scraper), once the tallest building in Stockholm, is located on the southern island of the city, known for its bohemian atmosphere surrounded by artist-run spaces and independent businesses.

Given its central location, Supermarket 2020 will reintroduce Associate galleries, inviting Stockholm-based artist-run spaces to become a part of the art fair's public programme. Associate galleries organise an exhibition programme in their own venue, in parallel to the art fair. A special opening night of Associate galleries will take place on 24 April.

On 22 April returns for the second year Supermarket Forum: a one-day networking event for exhibitors and invited guests from the Swedish and international art scene.
